## CONTENTS

|  |     |
|--|-----|
| <i>Myelkebir Aitalioubrahim</i><br>A viability result for functional differential inclusions in Banach spaces . . . . .  | 3   |
| <i>T. Hajba and M. Kovács</i><br>Solution of the convex programming problem via second order differential equation system . . . . .  | 23  |
| <i>Rabha W. Ibrahim</i><br>Existence of nonlinear Lane-Emden equation of fractional order . . . . .  | 39  |
| <i>Emrah Kılıç, Yücel Türker Ulutaş, and Neşe Ömür</i><br>Formulas for weighted binomial sums using the powers of terms of binary recurrences . . . . .                              | 53  |
| <i>Monica Lauran</i><br>Existence results for some nonlinear integral equations . . . . .  | 67  |
| <i>S. Moradi and A. Azizi</i><br>2-absorbing and $n$ -weakly prime submodules . . . . .  | 75  |
| <i>Medhat K. Rakha, Arjun K. Rathie, Purnima Chopra, and Richard B. Paris</i><br>Comments on “New hypergeometric identities arising from Gauss’s second summation theorem” . . . . . | 87  |
| <i>Miklós Rontó and K. Marynets</i><br>On the parametrization of boundary–value problems with three–point non–linear restrictions . . . . .  | 91  |
| <i>A. P. Santhakumaran and J. John</i><br>On the edge-to-vertex geodetic number of a graph . . . . .   | 107 |
| <i>Szilvia Szilágyi</i><br>The intersection of the compatible linear extensions of a natural partial order   | 121 |

***Miskolc  
Mathematical  
Notes***

**VOLUME 13 (2012), NUMBER 1**

---

**CONTENTS**

***JinRong Wang, Wei Wei, and Michal Fečkan***

Nonlocal Cauchy problems for fractional evolution equations involving  
Volterra-Fredholm type integral operators . . . . . 127

***Jianye Xia and Yuji Liu***

Positive solutions of BVPs for infinite difference equations with one-dimensional  
 $p$ -Laplacian . . . . . 149

CORRIGENDUM . . . . . 177
